

# Hospital fundraiser – *Mission Accomplished!*

**Victoria Vanier, Magog**

Last Thursday, the results of the Memphremagog Hospital Foundation's third major fundraising campaign were announced in the Chapel of the CSSSM. "It is a great pleasure to be here with you to celebrate victory, one year after starting to work together towards our goal," said Stephane Begin, the co-president of the campaign. "To this day, we have raised \$2.7 million."

Line Couture and Mr. Begin thanked all the donors and their fundraising team: "In our MRC, citizens and entrepreneurs have understood the importance of supporting the Memphremagog Hospital Foundation to achieve a successful fundraising campaign. Every dollar donated demonstrates how important our hospital is."

The funds raised during this campaign, named *Your Health Partner against Cancer*, will allow treatment locally of the most frequent cancers with a chemotherapy service. Furthermore the new operating room facilities will double the number of annual surgical procedures. Finally, the funds will allow for a broader range and a higher quality of home care and home services.
